Dear Willem

I would like to commend your company for the services that were given us during our stay in Barcelona. The services you provided us were so diverse from simple provisioning and flower arranging to the most difficult engineering and mechanical modifications, we could not have completed some of these projects in such a manner without your help outside of a shipyard.

On our arrival to Barcelona we had a long list of work that needed to be carried out in a relatively short period. Your service was above and beyond what we ever expected to find. Your attention to Patriot and our projects allowed us to complete projects in a timely manner. The team of workers you provided were the best mechanical team I have come across. They were fast, efficient and I never felt like we were not getting every penny's worth. Our only problem was that at times they completed projects so fast that I wasn't ready to move them to the next project.

Your service for a visiting yacht or one permanently berthed in Barcelona is exceptional and we will surely be in continued contact with you to provide parts delivery and service during our time, not only in Barcelona, but in other parts of the Mediterranean as well. Our gratitude to you and your crew.

Thank you for your help!

Captain Ronald LePard M/Y PATRIOT
